**CODE ENFORCEMENT PROCESS IMPROVEMENTS – SECOND BIANNUAL REPORT**

On November 30, 2004, your Board instructed the Chief Administrative Office (CAO), with the assistance of the District Attorney (DA) and County Counsel, to provide a biannual report to the Board on the effectiveness of the new code enforcement units within the DA and County Counsel. The initial Biannual Report, which covered the period January 2005 through June 2005, was submitted to your Board on August 23, 2005. This second Biannual Report (Report) covers the period July 2005 through December 2005. The Report provides a narrative of the efforts of the DA and County Counsel units. Exhibits 1 and 2 to the Report provide more detailed information regarding case status and disposition.

The Report includes information regarding staffing of the DA and County Counsel code enforcement operations, the investigations undertaken by the DA Code Enforcement Section Investigators, the number of cases and prosecutions handled by the DA and County Counsel, and the disposition of these cases. The Report also references ongoing efforts between the DA, County Counsel, and involved County departments to further enhance integration of operations within the County's code enforcement program, promoting collaboration among departments to ensure effective code enforcement, and pursuing civil or criminal prosecutions where necessary.

Treasurer and Tax Collector

**CODE ENFORCEMENT PROCESS IMPROVEMENTS**  
**SECOND BIANNUAL REPORT**  
**July 2005 through December 2005**

**DISTRICT ATTORNEY CODE ENFORCEMENT SECTION**

The District Attorney Code Enforcement Section's (Section's) approach to code enforcement is to obtain voluntary compliance through office conferences, whenever possible, and to prosecute criminally when compliance is not forthcoming. These methods include providing investigative support and peace officer backup to code enforcement officers, as well as education in the effective use of the criminal justice system and encouraging multi-agency cooperation.

**Staffing**

The Section is comprised of three Deputy District Attorneys (DDAs): DDA Michael P. Noyes (Deputy-In-Charge), DDA Everett Emerson, and DDA Randal Harris; and four DA Investigators (DAI): Supervising DAI Rogelio Maldonado, Senior DAI David Maro, Senior DAI Arthur Gutierrez, and Senior DAI Thomas Greep. The Section anticipates the addition of two more Senior DA Investigators in March 2006.

Each of the three Deputy DAs has a geographic responsibility as follows:

Michael Noyes	North County areas, La Crescenta, and the Santa Monica Mountains (Third and Fifth Districts)
Everett Emerson	East Los Angeles, Florence-Firestone, and the South Basin (First, Second, and Fourth Districts)
Randal Harris	San Gabriel Valley (First, Fourth, and Fifth Districts)

**District Attorney Investigations**

The DAI's are an important component of the code enforcement program. They have assisted in both criminal and civil cases, and since July 2005, have been involved in the inspections of more than 134 properties. They lend their investigative services to code enforcement inspectors and to the DA prosecutors. They also provide support by providing security to inspectors in the field conducting inspections in high risk neighborhoods and to the task forces and Nuisance Abatement Team (NAT) sweeps in the First and Second Supervisorial Districts. They have also assisted the Department of Animal Care and Control (DACC) officers in the Antelope Valley with the seizure of unpermitted livestock (see Exhibit 1, page 2, case involving "Outside storage of junk and salvage and/or inoperable vehicles").

Code Enforcement Process Improvements

Second Biannual Report

July 2005 through December 2005

Page 2 of 5

The DAIs' participation in the inspections and sweeps has enhanced the code enforcement inspectors' investigations at the department level, as well as generated the opening of 12 criminal investigations and resulted in 16 citations issued to unlicensed vendors (see Exhibit 1, page 2, Peddling Citations in Florence-Firestone) and 23 arrests for other criminal matters such as outstanding warrants, probation/parole violations, possession of narcotics, and battery on a police officer.

**Cases Handled by the District Attorney**

During this reporting period, the Section received 56 referrals from County departments and continued to work on four cases carried over from the prior reporting period. The Section worked with the State Department of Fish and Game and the following departments: Regional Planning (DRP), Public Works (DPW), Health Services (DHS), Fire, Treasurer and Tax Collector (TT&C), Agricultural Commissioner/Weights and Measures (ACWM), Sheriff [including the NAT and Community Oriented Policing Services (COPS) teams], DACC, and the Office of Public Safety.

The Section set 26 office conferences, handled 23 ongoing misdemeanor prosecutions, and one felony probation violation, convened several task forces to address problem properties, and was involved in informal talks with numerous property owners. The Section closed nine cases following successful resolution of the matters. No case was formally rejected.

See Exhibit 1 for a summary of the disposition of the cases, by Supervisorial District, handled by the DA Code Enforcement Section this reporting period.

**COUNTY COUNSEL CODE ENFORCEMENT UNIT (CCCEU)**

The CCCEU works with property owners and area residents to assist violators in bringing properties into compliance. To the extent that the CCCEU can resolve violations without having to pursue civil court actions, it is advantageous to all parties involved. However, court action is pursued when voluntary compliance is not achieved.

**Staffing**

Since the initial Biannual Report to the Board, the CCCEU, which is comprised of three attorneys, Sari Steel, Paul Kim, and Dusan Pavlovic, has added Lynnise Wright, a paralegal, to its staff.

The CCCEU has emphasized improved coordination, cooperation, and communication among the code enforcement departments and consistent application of the County's civil code enforcement remedies. The CCCEU handles cases from communities throughout Los Angeles County. The CCCEU caseload distribution is as follows:

Code Enforcement Process Improvements

Second Biannual Report

July 2005 through December 2005

Page 3 of 5

Sari Steel	First Supervisorial District
Dusan Pavlovic	Second Supervisorial District
Steel, Kim, Pavlovic	Third Supervisorial District
Paul Kim	Fourth Supervisorial District
Steel, Kim, Pavlovic	Fifth Supervisorial District

**Cases Handled by County Counsel**

During this reporting period, the CCCEU received 26 new referrals and continued to work on 30 cases carried over from the prior reporting period. The CCCEU is handling two pending court matters, held four office conferences, and closed seven cases when the properties were brought into substantial compliance.

See Exhibit 2 for a summary of the disposition of the cases, by Supervisorial District, handled by the CCCEU during this reporting period.

**ONGOING EFFORTS TO INTEGRATE CODE ENFORCEMENT OPERATIONS AND PROMOTE DEPARTMENTAL COLLABORATION**

- As part of the Residential Placement Protocol (RPP) Work Group, the DA Code Enforcement Section and the CCCEU worked with the CAO to plan and conduct a Training Conference in October 2005 at the Los Angeles County Arboretum. The conference provided training to the employees of 11 County departments and four state agencies who are members of the RPP. Topics included Recognizing Indicators of Elder and Dependent Adult Abuse and Neglect presented by the Elder Abuse Prosecution Unit of the DA's Office; How To Successfully Interface and Interact with Los Angeles County Adult Protective Services presented by Community and Senior Services/Adult Protective Services; and Spotting and Referring Common Code Violations presented by the County's Code Enforcement Departments, the DA and the CCCEU. Recent amendments to the Welfare and Institutions Code identify code enforcement departments including Public Works, Fire, and Sheriff as mandated reporters in cases of elder and dependent adult abuse and neglect. Additionally, it is critical for social service departments to recognize code violations to ensure the protection of their clients from abuse and neglect. The CCCEU also assisted the departments with their coordination and proposed implementation of the protocol. Additionally, as part of the RPP, the DA and the CCCEU have assisted the CAO and the RPP Work Group with procedural and substantive advice and the convening of task forces to address problem residential facilities.

Code Enforcement Process Improvements  
Second Biannual Report  
July 2005 through December 2005  
Page 4 of 5

- The second of two semi-annual Code Enforcement Training Conferences was held in November 2005 at the Los Angeles County South Coast Botanic Garden in Palos Verdes. The conference included five training modules, as well as a pre- and post-conference Knowledge Assessment Survey. The DA, CCCEU, DPW, Environmental Programs Division, DACC, ACWM, T&TC, Sheriff, and DA Investigation Bureau worked together and presented training modules on the following topics: Investigation: Best Practices, Report Writing: Best Practices, Referrals, Inspection Warrants, and Spotting and Referring Common Code Violations.

The training modules were selected in an effort to increase interdepartmental collaboration and to promote efficient and integrated code enforcement. The second of the code enforcement training conferences completes the code enforcement departmental cross-training designed to identify violations which are handled by other departments and agencies and which are not necessarily within the purview of the responding department. Based on the audience participation, nature of questions posed and the positive feedback from the participants following the conference, the code enforcement departments are beginning to understand and appreciate a global approach to code enforcement and the distinction between the civil and criminal components of a successful code enforcement program.

- The next semi-annual code enforcement cross training is scheduled to take place on May 24, 2006 at the Los Angeles County South Coast Botanical Gardens. The DA and County Counsel will train code enforcement staff on such topics as preparing inspection warrants and the scope of administrative searches for code enforcement cases.

The DA and County Counsel have continued to work collaboratively with involved County departments and State agencies to enhance the County's code enforcement program. Progress in developing policies and procedures for involved County departments' use in preparing code enforcement cases for prosecution has also occurred during this reporting period.

### **SPECIAL PROJECTS**

The CCCEU is working with the DA's Code Enforcement Section to develop pocket-sized inter-agency field guides for code enforcement officers and constituents in each Supervisorial District. The guides will include contact information for each of the code enforcement agencies, the DA's, and County Counsel's code enforcement units, as well as common code violations and corresponding code sections.

Code Enforcement Process Improvements

Second Biannual Report

July 2005 through December 2005

Page 5 of 5

**ADVISORY/RESEARCH/ORDINANCES**

In addition to handling cases, the CCCEU has been active in advising departments on matters such as traffic calming devices (speed humps), catering truck and vendor cart issues, illegal dumping, criminal nuisance abatement, code interpretation, and review and revision of current ordinances. The CCCEU is also investigating County Code revisions to further enhance the CCCEU's ability to ensure compliance with the County Code.

**CONCLUSION**

The aim of the County's code enforcement program is to improve the quality of life for the residents of the unincorporated areas of Los Angeles County. To this end, the actions taken by the Board to enhance the resources available for prosecution of code enforcement cases has resulted in increased DA criminal prosecutions and additional referrals to the CCCEU for pursuit of civil remedies.

Second Biannual Status Report for July 1, 2005 to December 31, 2005**

Supervisorial District/Case Description	Carryover From Prior Reporting Period	New Referrals	Office Conferences	Civil Prosecutions	Cases Closed	Cases Pending	Comments
<b>First District</b>							
Zoning and building code violations of four residential properties	4					4	DRP, DPW, and CCCEU met in December 2005 to prepare for litigation on the 4 cases.
Nuisance property in East L.A. with long history of drug and gang activity; (Also reference "Living in Garage" case in DA Exhibit 1/First District)		1				1	The CCCEU worked with the DA's Welfare Fraud Unit and Code Enforcement Section, DPW and Probation to coordinate an enforcement strategy to address problems associated with the property. The terms and conditions of probation for the tenant/co-owner living on the property were modified to prohibit any surveillance equipment on the site, prohibit persons with gang affiliations from entering the property, and add search and seizure conditions. The Sheriff and Probation Departments are closely monitoring activities on the property.
Residential/commercial property with long history of nuisance/criminal activities; located in unincorporated area near Azusa-Covina borders						1	Extensive code violations include recreational vehicles used as residences, junk and salvage, health violations, building violations, and illegal wiring and plumbing hookups. Property owners allegedly facilitating problems. DA is handling the case and County Counsel is assisting with title issues.
Non-conforming use, illegal wiring, unpermitted structure; (Also reference "Improper uses within zone, blocking roadway, unpermitted construction" case in DA Exhibit 1/First District)		1	1			1	Office conference held with property owner and counsel; property owner instructed to file necessary permits; DRP preparing case for civil action.
<b>First District Total</b>	<b>4</b>	<b>3</b>	<b>1</b>		<b>0</b>	<b>0</b>	<b>7</b>

Supervisorial District/Case Description	Carryover From Prior Reporting Period	New Referrals	Office Conferences	Civil Prosecutions	Cases Closed	Cases Pending	Comments
<b><i>Fifth District (continued)</i></b>							
Major illegal disposal operation		1			1		Criminal case filed against pumping company by DA's Environmental Crimes Division for illegal storage and disposal of hazardous and non-hazardous wastes, fraud and forgery. Civil action, also pending, commenced by ten neighbors who have complained of illnesses and are trying to stop responsible parties from dumping additional waste. The CCCEU has been working with DHS, in its capacity as the Local Enforcement Agency, the Los Angeles County Health Hazardous Materials Unit, the California Integrated Waste Management Board, the Department of Toxic Substances Control, and counsel representing the responsible parties to coordinate testing of the non-hazardous waste piles and appropriate removal and disposal.
Junk and salvage, owner conducting activities without a permit which is impacting oak trees	1					1	Case closed in March 2005 due to substantial compliance. Case was subsequently reopened due to new violations.
Garage conversion without zoning or building permits		1				1	Owner to submit plans to legalize garage conversion.
<b>TOTAL CASES</b>	<b>30</b>	<b>26</b>	<b>4</b>	<b>2</b>	<b>7</b>	<b>49</b>
